Re: Classic Aire System

Mr. Newman -

I have never written to
a company before so please bear with me.

I am so impressed with
your classic pure system, I feel I must
write & tell you & also to send along a big
thank you from my husband.

My husband is on a bid
cigar smoker. I have always requested that
when smoking his cigars he do it out on our
patio in our garage garage. Reluctantly
but begrudgingly he complied. We had just
finished putting in a beautiful new room in
our home in Sweden & needless to say, I
didn't include the cigar ~~odor~~ odor or
smoke residue in our decorating plans for
the new room in our home.

About three weeks ago, a friend of ours gave us your brochure explaining your air treatment system. Of course my husband jumped at the chance to make him a little more comfortable while relaxing.

I must admit I was very skeptical that it would work but I agreed to give it a try. When it arrived we tried it out right away, & lo & behold it really works! We had ordered the C 3500 no season & I couldn't believe that, that small box could do so much.

Our room is 15 x 18 & there was no odor anywhere in that room & excluding the furniture & the carpets. We then gave it another test. We took it to our smaller home in Texas. We gave it a try there also & it does work. My husband smokes about 2 cigars a night & there's not an odor to be found! It worked so well in fact we ordered the C 3500 with season for our home in New Jersey so we don't have to bring it along with us. This past week I annoyed my husband & his associates when I said it would give if they ate up their ^{Cigars} ~~bag~~ in my home!

I knew I had the great little box that would take care of odors.

By the way it does a great job on cooking odors as well. No odors go through the house.

We are very happy with your air
system and have been sending it
to some of our friends who have
a you smoker in the family.

Thank you for making my
husband's life what more comfortable
me happy with a fresh smelling home

Sincerely
Mrs. Mary Davis
